Time Saver / Helpful Hint

Export to OneSource Trust & Estate Administration

Did you know whether you use our outsourcing service, where you send your estate valuation to us to do for you, or if you use one of our online technology solutions to do the valuations yourself, APPRAISE can create an output file which can then be imported into OneSource Trust & Estate Administration. This process saves time and is more accurate than inputting the values yourself.

Who is ESI-APPRAISE (Evaluation Services)?

Evaluation Services, the developers of APPRAISE, provides stock and bond valuations which exceed the stringent IRS requirements for Estate, Gift, & Trust tax returns and follow Generally Accepted Accounting Principles. We also perform capital change reporting, cost basis calculations, historical portfolio and exception list pricing.

We offer both outsourcing (full service) and technology driven (self-service) solutions which interface with third party applications.

Outsourcing your valuations to us frees you up to focus exclusively on your most important tasks. Just complete our order form and send us a list of holdings. Then, leave the work to us.

Our self-service solutions include: software, which is an older way to deploy technology, as well as state of the art "software as a service" and web based applications. The newer apps are especially popular because they are easy to implement, always current, scalable, and require minimal support from your technology departments.

You can pay your invoices by check, credit card, or electronic fund transfer. We back all of this up with first class customer service and fair pricing.

Why not give us a try? Click [here](#) for a list of solutions.

Customer Feedback

We want to make it easy for our clients to give us feedback. Please click [here](#) if you want to contact us.

Here is a recent testimonial from a client.

"I have nothing but praise for the quick, accurate and friendly service provided by Missy Plaine. She is truly stellar!"
